

BRITISH COLUMBIA GO ELECTRIC PASSENGER VEHICLE REBATE PROGRAM - VEHICLE ELIGIBILITY APPLICATION FORM

The purpose of this form is to assist the British Columbia Ministry of Energy, Mines and Low Carbon Innovation in assessing whether new zero-emission vehicle models can become eligible for a point-of-purchase rebate under the CleanBC Go Electric Passenger Vehicle Rebate Program. For current list of eligible vehicles visit: <https://newcardealersgoelectric.ca/>. Original Equipment Manufacturers (OEMs) must fill out this form to submit new model year and/or vehicle models for consideration and forward to the email below. Via the submission of this form, your organization is also agreeing to notify the Ministry within at least five business days of any change to the MSRP of an eligible vehicle or vehicle trim.

Low Carbon Innovation

¹MSRP does not include additional costs or fees included in the sale of a vehicle (accessories, dealer fees, environmental fees, pre-delivery inspection fees, etc.).

²Image should be a ¾ view, on transparent background, a portable network graphic (PNG) and 1200px wide at 72dpi or higher. An image in silver or grey is preferred if the vehicle is available in those colours.

³Manufacturer’s invoice and/or window sticker (“Monroney label”), with the MSRP itemization and VIN listed, must be available for each vehicle. Documentation not meeting the criteria may result in delays in processing and/or eligibility reassessment.
